City of Boulder City

City Starts “Adopt-A-Streetscape” Program

The City of Boulder City maintains 92 miles of public roads – that includes both sides of the street and the medians as well. Our Streets and Landscape crews do an exceptional job at maintenance and upkeep. The reality is that sometimes, it is hard to keep up that pristine appearance. Sadly, some people litter. Weeds grow quickly. Wind can cause garbage and debris to fly away.

Community organizations, civic groups and individuals can now “Adopt-A-Streetscape” to beautify streets in our great city. Working with our Department of Public Works, groups can apply for a permit to work on maintaining a streetscape four times a year at their convenience. For their efforts, the city will install signage celebrating the group or individuals on the streetscape (see photo).

The Nevada Department of Transportation (NDOT) has seen great success with their Adopt-A-Highway Program for community groups and individuals volunteering to clean up highways over the past 35 years. Boulder City modeled its program to be similar to NDOT’s program.

Safety is always our primary concern. Participants must:

- Be 18 years of age or older;
- Wear OSHA approved reflective vests;
- Stay a reasonable and safe distance from passing traffic at all times.
