Elevate the Flight Experience at BVU!

Boulder City Municipal Airport is a wonderful place to fly in, but it could use a great place to hold a meeting or grab a bite to eat. The City Council is looking to make available a total of 43 acres of city land for lease at the airport. The City is accepting Requests for Proposals (RFPs) until 1:00 p.m. on March 31, 2025.

Boulder City Municipal Airport (KBVU) is categorized by the FAA as a non-hub primary commercial service airport and is the third busiest airport in Nevada based on enplanements. It is not affiliated with Clark County Department of Aviation; it is completely owned and sponsored by the City. The airport has enjoyed increased activity in recent years due to Las Vegas events including "Super Bowl LVIII" and the F-1 Racing.

The City will review all responses presented by qualified respondents, to determine the best uses to develop at the airport. The City Council may agree to lease two portions of undeveloped land near the airport (see maps below). Suggested uses in the RFP include:

- Business Space (office, hangar, ramp area) for aviation businesses
- General Aviation Hangar Space
- Shade Hangars/Covered Tie Down
- Adequate parking for aircraft and vehicles for the designed development
- Overflow Parking area or garage
- Restaurant
- Large meeting space
- Conference Room Space (minimum capacity 250 persons, with amenities)

To read the full RFP packet or submit a proposal, visit www.bcnv.org/BVURFP.
