

Congratulations, BC Electric Division!

Boulder City received the American Public Power Association (APPA) Excellence in Reliability Award in August! The award recognizes municipal utilities that excel in delivering reliable electric service. The award is based on the average outage duration per customer and the average number of outages customers experience. The APPA says that our Electric Division “performs better than the national average, demonstrates a commitment to strong infrastructure and smart grid technologies, and uses sound operational practices that reduce outages.” Congratulations to the Division for a job well-done!

Sign Up for Budget Billing Today!

Budget Billing averages your last 12 months of utility costs, so you pay the exact same amount on a monthly basis. This helps by building credit when bills are low and paying the same amount when bills are high. The budget billing amount is adjusted yearly to accurately project your monthly payment. You will still receive a monthly bill that shows:

- Meter readings for the month
- Charges for the amount of utility services used
- Exact costs that would normally be due
- The Budget Billing amount currently due

Every October budget billing accounts will be settled. You will receive a bill for October plus or minus any balances from your budget balance. Service location changes require any remaining balances on the EPP account to be paid in full. Visit www.bcnv.org/budgetbilling for the application. (Budget Billing amounts may be adjusted according to consumption pattern at the City's discretion.)
